The GSR B180T platform reaches a new level in its telescopic range on 3,5 t vehicles.

While maintaining its traditional levels of rigidity and sturdiness, this model introduces several significant elements of innovation offering improved outreach with reduced footprints.

This machine is simple to use and technologically advanced, with stabilizers in compact version, 7 metres in length and horizontal outreach up to 11,20 metres, it confirms the high-quality standards and innovation of GSR products.
