## B200T4 Comfort XEV 19,8 m

The GSR B200T4 platform reaches a new level in its telescopic range on 3.5t vehicles.

While maintaining its traditional rigidity and sturdiness, this model introduces several significant elements of innovation offering improved outreach with reduced footprints.

This machine is simple to use and technologically advanced, with stabilizers in extendible variable version, reduced length and horizontal outreach up to 14 m, it confirms the high-quality standards and innovation of GRS products.
